ROLLER BLINDS

Roller Blinds continue to offer perhaps the most practical style of window shadings. Roller Blinds are suitable for almost any part of your house or office. Our collection combines the tone of contemporary weaves and textures with exclusivity of traditional fabrics.

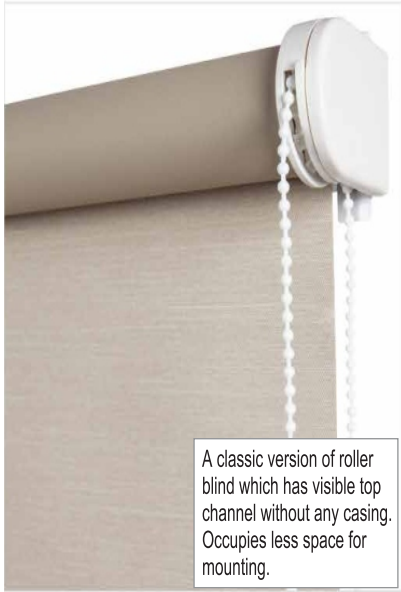

SPIDEX Roller Blinds come with a choice of PVC screen glass fibre polyester and natural fibre fabrics. Choose from manual or motorized mechanism. Also available with a decorative cassette, providing a housing with clean lines that hides the rolled up blind from sight.

PRODUCTION VARIANT

1. Classic style
2. Facia style
3. Day & Night style
4. Spring style
5. Motorised system

■ Classic Style With Clutch Operation

A classic version of roller blind which has visible top channel without any casing. Occupies less space for mounting.

■ Classic Style With Spring Type Operation

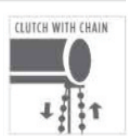

Child Safety

Easy and smooth operation with a small string neatly attached to the bottom rail. The blind moves upward with one touch of a string. It ensures child safety as there is no long tangling cord or chain. Comes with the classic style.

■ Fascia Style

Top channel is covered with a case. Comes with same fabric lamination on it providing a fascia with clean lines that hides the rolled up blind from sight. Occupies more space for mounting.

SOLARETTE BLINDS

AT A GLANCE

Solarette Blind has multiple vanes stitched with two layers of sheer fabrics. This pattern allows maximum light filtration in a subtle way.

OPERATING SYSTEMS

- Clutch operation (with chain with cord)
- Motorized

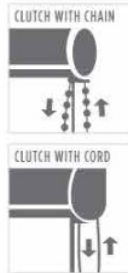

TUBE SIZES

- 38 mm
- 46 mm

(Refer to table for Holding Capacity of the above tubes)*

■ Solarette

CELLULAR BLINDS

AT A GLANCE

This is considered to be an excellent weather control blind thanks to its innovative honeycomb style structure. The air is trapped between the cells and creates excellent insulation which controls the temperature inside the room.

OPERATING SYSTEMS

- Cord lock operation
- Clutch operation
- Cordless operation
- Easy lift operation

(Applicable only for bigger blinds - Refer to table)

VARIANTS

- Classic
- Day n Night
- Top down bottom up (TDBU)

WOODEN BLINDS

AT A GLANCE

Our wooden Blinds are made with original Bass wood which is considered to be the best wood for blinds. Bass wood does not bend or sag with harsh sun light.

One can gain maximum light filtration by tilting the slats to 180 degrees.

OPERATING SYSTEMS

- Cord Lock System
- Easy lift with chain
- Easy lift with cord
- Motorized

VARIANTS

- 35mm wooden blinds
- 50mm wooden blinds

ADDITIONAL FEATURES

- With ladder tape
- Without ladder tape

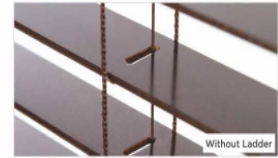

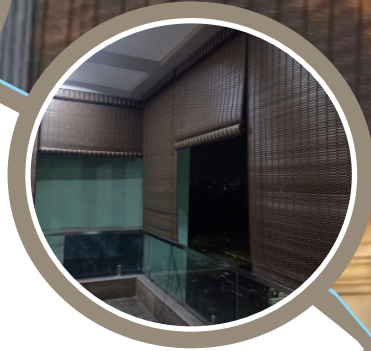

Easy Lift Operation With Cord

ADDITIONAL FEATURES (Applicable for all wooden blinds)

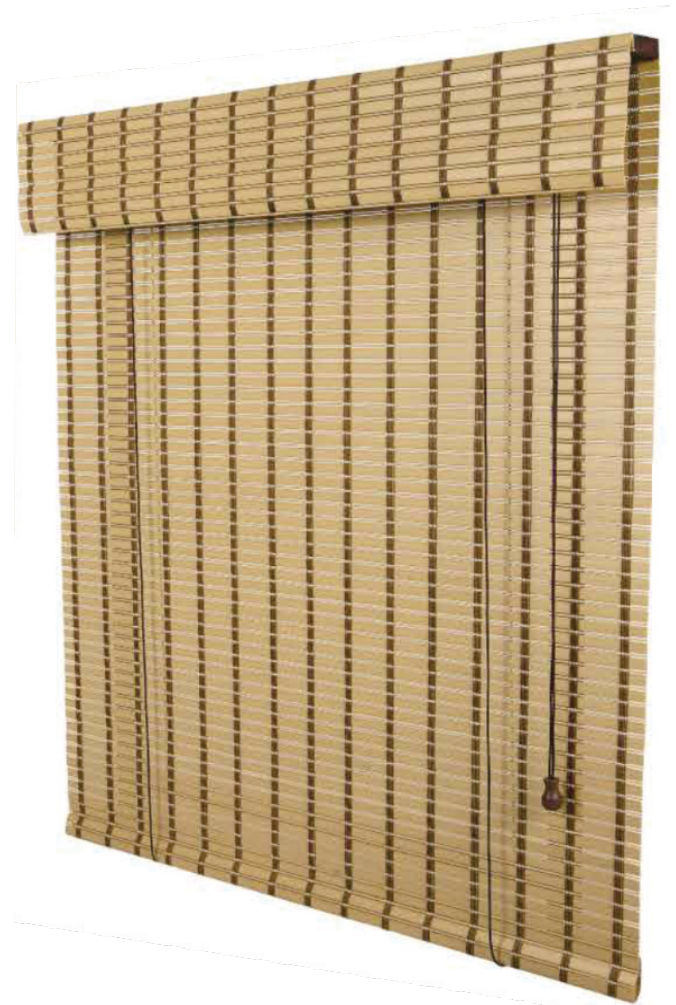

PVC EXTERIOR BLINDS

These blinds can be used in any area which has high probability of exposure to direct sunlight and rain. PVC outdoor blinds can be used to block heavy rainfall, sunshine and heat.

Storefronts, side open cafeterias, patios, gazebos, balconies and facades are some examples of where these blinds can be used.

Operating Systems

- Cord Lock System
- Easy lift with chain

ALL WEATHER BLINDS

At a glance

This blinds are made of PVC, as the name suggests. They are best suitable for exterior applications.

OPERATION: Manual Crank - the geared crank ensure easy operation that is not dependent on your strength. Available in a wide selection. The geared crank handles are available in 1200 mm, 1500mm lengths to suit any awnings height.

Size & Application

Maximum Width : 5m or

Maximum Drop : 4m (up to max. 16sq.m)

Sleek and simple with a modern aesthetic, suitable for balconies where you are able to strap the blind to the railings or simply strap it down to loops attached to the ground. This blind is designed to be either fully up or strapped in the down position.

Style : Exterior Roller | Straight Drop

Suitability : Windows + Balconies + Alfresco Dining Rooms

1. Open Rollers

A modern industrial look is offered by exposing the components. By eliminating the aluminum box profiles, the price is significantly reduced.

2. Hold Down Straps

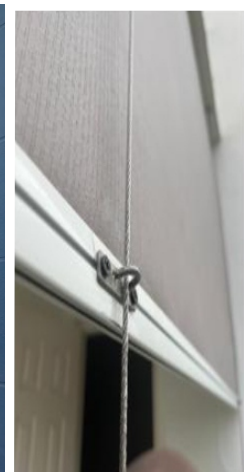

Can be used to hold down the awning at various points across the bottom rail and assists in minimizing bottom rail movement in stronger winds.

3. Stainless Steel Brackets

We recommend our optional marine grade stainless steel brackets for this system.

all-weather
experience
inside better.**

VERTILITE BLINDS

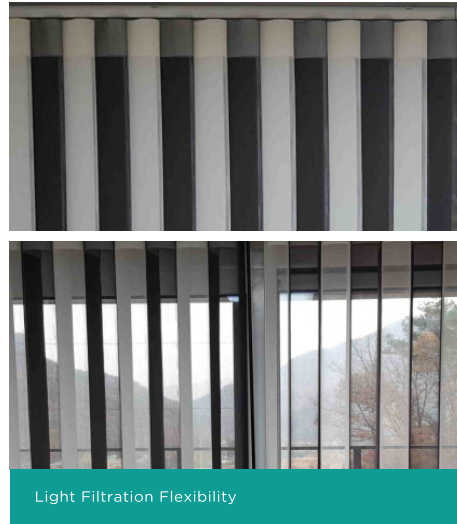

Vertilite Blinds are also called Smart Curtains. These subtly curved and timeless vertical window coverings can be tilted to make it sheer or translucent as per the light filtration requirement. Suitable for large doors and french windows, this blind travels vertically and allows easy and instant access through the door.
